TRAINING

- Chetu Skills Centre
  Completed full-stack .NET training with hands-on experience in ASP.NET, ADO.NET, Entity Framework, MVC, API integration, and SQL for effective backend development and database management.

PROJECTS

- Learning Management System
  Developed a full-stack LMS to streamline digital learning with user registration, course enrollment, and quizzes. Admin features include multimedia course uploads, user management, and performance tracking. Designed for scalability, security, and ease of use, tailored to vocational training needs.
